

Descriptive Catalogue of the Collection of Lace in the South Kensington Museum; Palliser, Bury
1881

Mrs. Palliser is well known for her *History of Lace*, written in the latter part of the 19th century and revised later several times. This is a documentation by her of the holdings in the South Kensington Museum (now the V&A) in 1881. It is the third edition, revised and enlarged by Alan Cole, the famous curator of the textile area of the museum.
