### REMARKS.

Yards Cloth made per annum, 39,170,000  
 Pounds Cotton consumed, 12,250,400  
 Amounting half to the Upper, and half to the Lower and Adams, the consumption in bales, is 31,800  
 A pound of Cotton averaging 3 2/3 lbs yds  
 100 pounds Cotton will produce 80 pounds Cloth.  
 As regards the health of persons employed, great inquiries have been investigated, and the result shows, that 6 of the females out of 10 enjoy better health than before being employed in the mills, — of males, one half derive the same advantages.  
 As regards their moral condition and character, they are not inferior to any portion of the community.

Average wages of Females, close of year, \$1.00 per week.  
 " " of Males, close of year, 80 cts. per day.  
 Median produce of a Loom on No. 14, Yarn, 25 to 40 yds per day.  
 " " No. 16, 25 to 30  
 Average per Spindle 1 1/2 lbs yarn per day.  
 Persons employed by the Companies are paid at the close of each month.  
 The average amount of wages paid per month, \$25,000  
 A very considerable portion of the wages is deposited in the Savings Bank.  
 Consumption of Steam per annum, 110,000 lbs.  
 " of Flour for do. in Mills, Print Works & Bleachery, per year, 3,500,000 lbs.  
 " of Charcoal, per annum, 200,000 bushels.

To the above named principal establishments, may be added, the extensive Powder Mills, of O. M. Whipple, Esq; The Lowell Bleachers; Flannel Mills; Card and Whip Factory; Planing Machine; Reed Machine; Grist & Saw Mills, together employing about 300 hands, and a capital of \$300,000. Also, in the immediate vicinity, Glass Works, and a Furnace, supplying every description of Castings.

On the 1st. June next, the Middlesex Company will manufacture 500 yards of Sattinet per day, in addition to the above, and the consumption of Wool will then be 2000 lbs per day in their establishment. The Locks & Canals Machine Shop, included among the 22 Mills, can furnish machinery complete for a Mill of 5000 Spindles in 4 months, and lumber and materials are always at command, with which to build or rebuild a Mill in that time, if required.
