

# AD-A-HARNESS LOOMS

16" and 20" — PORTABLE TYPE — MODEL CP11

(Pat. Pending — Est. 1936)

Open

Folded

Our portable model floor loom is made to fold very compactly, with a few simple motions, to dimensions which make it possible to carry it in a car to and from your summer home or to guild meetings.

It also serves nicely as a second loom which can be folded and put in a corner when not in use.

Its weight is also at a minimum, consistent with our reputation for good rugged design.

As in our large looms the moving parts and braces are of metal. There are no ropes or cords to stretch and they are therefore always in adjustment, ready for weaving.

The wood frame is made of selected kiln dried maple and strong birch plywood and well finished in the manner of our large looms.

A substantial leather handle is attached to one side for convenience in carrying.

Folding is easily done with the loom threaded, although the warp may need additional protection under some conditions.

The loom is rigid and strong, considering its weight, and has a good shed conducive to satisfactory weaving in any material.

The mechanism is of the push-up rising shed type, with lamms and two more pedals than harnesses, with pedals hinged at the front. Folding or unfolding does not disturb the tie-up of pedals to the lamms.

The 16" is made in 4 harness only. The 20" is made in a 6 harness frame so that if a 4 harness is ordered at first, the customer may make it into a 6 harness later by ordering Ad-A-Harness units and installing the extra harnesses and other parts with simple tools.

The looms come regularly equipped with plain warp beam, 15 dent reed (or your choice), shuttle, reed hook, 2 leash sticks, the necessary pedal hooks for any tie-up and instructions for setting up.

Shipment is made best way or as per your instructions, transportation collect. Final payment is required before shipment.

	Price	Weight	Dimensions		
			Height of beams	Front to back	Folded
16"-4 harness	\$ 99.50	34 lbs.	27"	30 $\frac{1}{4}$ "	9 x 21 x 37 $\frac{1}{2}$ "
20"-4 harness	\$108.50	38 lbs.	27"	31 $\frac{1}{4}$ "	10 x 25 x 37 $\frac{1}{2}$ "
20"-6 harness	\$119.50	43 lbs.	27"	31 $\frac{1}{4}$ "	10 x 25 x 37 $\frac{1}{2}$ "

AD-A-HARNESS units for the 20"—\$6.00 each.

Extra reeds 20"—\$4.00 . . . 16"—\$3.50 each.

8" flat heddles \$12.00 per thousand.
