

We will host the “Secure Software Testing for Web and Mobile Applications” Research Experience for Undergraduates Site at University of North Texas this summer. Accepted students will receive:

The opportunity to work on exciting research in the areas of testing and security for Web and Mobile applications.

\$5,000 stipend for 10 weeks.

Housing at UNT for no cost to the student

Some students will receive a travel stipend for moving expenses.

The opportunity to be part of program that has a strong emphasis on collaboration with other students on research projects (you won’t sit at a computer by yourself all day/every day).

The opportunity to interview faculty and current graduate students about their research and graduate school.

More details and the application are available:

http://www.cse.unt.edu/~reeneebryce/Renee_Bryce/REU.html

We will begin review of applications starting on Feb 1, 2015.
