

2Shoes App
Software Developer Internship

Who we are

Founded in 2014 in Tucson, AZ, [2Shoes App](#) is a web-based system that makes it easy for attendees to ask questions, answer polls, give feedback and access presenter documents. Our goal is to increase attendee-presenter engagement and our current customers include some of the largest continuing education organizations in the nation.

What this internship is

This position will entail working with our CTO and CEO on development tasks as our company grows. These include small tasks such as fixing bugs and tweaks, to larger engineering efforts including adding new functionality and architecture design. This position is for 5-10 hours per week and during the fall 2015 semester (dates flexible).

Perks of the position

- Work directly with the CTO of a high-growth company
- Internship credit through The University of Arizona
- Work with a fun, talented and passionate team

Minimum Requirements

- Finished sophomore year of college, pursuing a degree in Computer Science
- Some experience in PHP
- Experience writing object oriented JavaScript
- Ability to work with a virtual team
