RE: Software/Application Design and Programming Position

Employer: AUV Flight Services

Location: Tucson, AZ

Schedule: Part-Time; Roughly 10-20 Hours/Week

Salary: TBD based on Experience and Skills

Description:

We are looking for a motivated individual with programming and strong design skills to assist with a new software program we are developing for our company. We would like someone who can assist with the back-end as well as the user-interface of the software. In addition, someone with experience in Android/Apple App Development is a huge bonus. This position would report to our Office located near the Tucson Airport each week. The schedule is TBD but very flexible within the 8am-5pm workday. We are looking to fill this position ASAP.

Application Process:

Please email a Cover Letter and Resume to:
