

**We are looking for an undergrad to help with some research and paper writing dealing with networks and distributed computing.** This a paid position with an hourly rate of \$12.

Tasks would include helping to run various benchmarks, assisting with writing one or more research papers, proofreading, and other small tasks as encountered. Must be comfortable working in a Linux shell environment; helpful if you have experience with networking, Java, and large Java programs, such as Hadoop.

If interested, please contact Dr. Chris Gniady at [gniady@cs.arizona.edu](mailto:gniady@cs.arizona.edu)
