

```
/* barrier code for worker process W[i] */
<await (arrive[i] == 0);> /* key line -- see text */
arrive[i] = 1;
<await (arrive[j] == 1);>
arrive[j] = 0;

/* barrier code for worker process W[j] */
<await (arrive[j] == 0);> /* key line -- see text */
arrive[j] = 1;
<await (arrive[i] == 1);>
arrive[i] = 0;
```

Two-process symmetric barrier in display (3.15)
